An enthusiastic and detail-oriented Junior Frontend Developer with proficient knowledge in HTML ,CSS ,Bootstrap ,tailwind and Javascript as well as libraries such as, React. I always love to explore and learn new things. I want to establish my capability and will try to inspire others to explore their ability and creativity.

Experience

2023 - Present

IT Sheba Limited - Software Comapny

SKILLS

Programming Languages:

- HTML
- CSS
- SASS
- JavaScript
- PHP

Database :

- SQL, MySQL.

Frontend Frameworks:

- Bootstrap
- Tailwind CSS
- React JS

Backend Frameworks :

- Node js (Learning)

Project:

- joota footwear E-commerce .([link](#))
- zestmart bd E-commerce .([link](#))
- Ekotamart .([link](#))
- It Sheba Limited .([link](#))
- Monirgroup .([link](#))
- Umrahsheba .([link](#))
- Bcb High School .([link](#))

And more 50+ Project .([Github profile](#))

Thesis:

- A CNN model for diagnosing brain tumors from MRI images based on an ablation study (Published) . [paper link](#)
- paddy leaf disease detection using machine learning with image processing (submitted)
- Lung and Colon Cancer Classification Using Medical Imaging: With Best Image Pre-processing (Continue).

EXTRA SKILLS

Programming Languages:

- C,C++
- JAVA.

Deep learning :

- ConvNet

Familiar With:

- problem-solving in the OJ
- Data structure and algorithm4

Framework:

Google Colaboratory
